

WOGAN COFFEE

Case Study

CUSTOMER COMMENTS

"I loved that BSE UK were able to provide me with exactly what I wanted, we went for pre galvanised racking and shelving to fit with the look and feel of our space and that was no problem for them.

I also loved that they are a SEMA approved company, this meant I knew from the beginning I was going to get the best quality and service.

I will definitely use BSE UK again in the future'."

LOCATION

City Centre, Bristol

THE COMPANY

Established in Bristol in 1970, Wogan Coffee is now in its 3rd generation. Wogan Coffee are passionate about sourcing their coffee from ethical farms around the world, and hand roasting every bean back in Bristol.

PROJECT BRIEF

Salesperson: George Ives
george@bristol-storage.co.uk

BSE UK were asked to supply racking and shelving for raw coffee beans and storage of packaging and other products for their new unit.

“

I also loved that they are a SEMA approved company, this meant I knew from the beginning I was going to get the best quality and service.

”
