

NISSIN(U.K.) LTD. LEICESTER DEPOT

Case Study

CUSTOMER COMMENTS

“Having worked with BSE UK before we felt comfortable that we would receive the best possible service, knowledge, and expertise to complete our project.

BSE UK have a brilliant project management team who took the time to answer all of our questions and come to site to make sure everything was perfect.

I have built a good relationship with George and very much look forward to working with him and BSE UK in the future.”

THE COMPANY

NISSIN (U.K.) Ltd. is owned by the Nissin Corporation based in Japan. A London branch was opened in 1975 and then in 1983 it became an independent subsidiary. Nissin's traditional business in Air & Ocean Freight Forwarding, Customs Brokerage, Warehousing has provided a solid background to enter the increasingly dynamic global transportation markets with services such as third party logistics and supply chain management.

PROJECT BRIEF

Salesperson: George Ives
george@bse-uk.co.uk

To design, supply, and install pallet racking at a new site in Leicester. Using both warehouses to optimise pallet spaces and work efficiently with the customers operations.

PRODUCTS USED

This project used AR Pallet Racking, which allowed the customer 4,284 UK pallet locations or 5,712 Euro Pallet locations and 600 picking locations at ground level. To enable the most efficient working we installed a drive through aisle. Mesh Decking was fitted to all pallet location and rack protection was provided for the whole installation.
