

# NEW PALLET RACKING INSTALLATION IN GLOUCESTER

*Case Study*

## CUSTOMER COMMENTS

"BSE UK were able to provide us with everything we needed, the project management team attended pre start meetings to ensure all contractors onsite could work well together.

The project ran smoothly and we are very happy with the installation, we would not hesitate to use BSE UK in the future."

PROJECT MANAGER

## PROJECT BRIEF

Salesperson: George Ives  
[george@bse-uk.co.uk](mailto:george@bse-uk.co.uk)

To Supply, deliver and install pallet racking to the specification provided by our customer for their new warehouse in Gloucester.

## LOCATION Gloucester

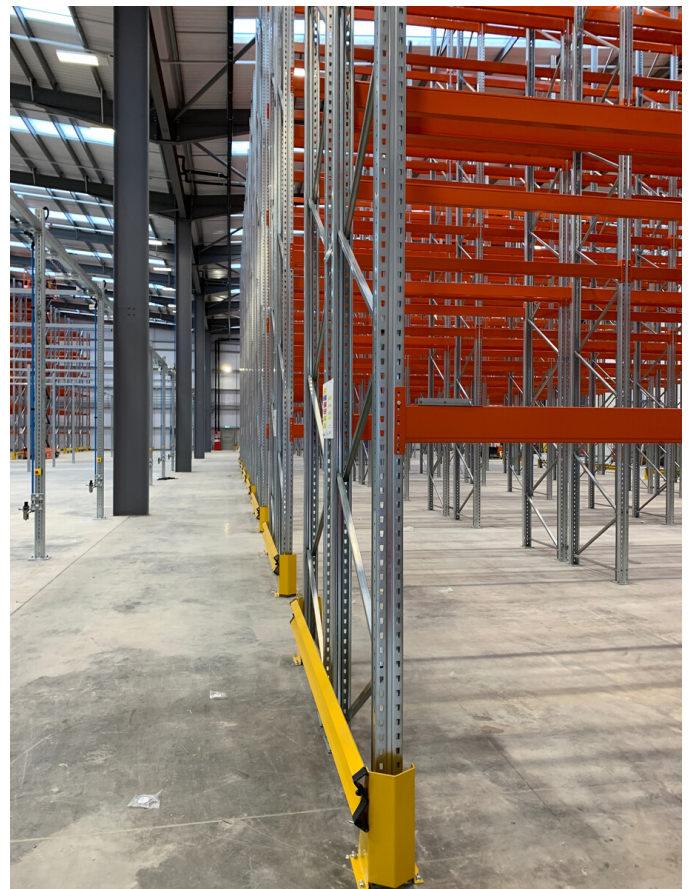

## PRODUCTS USED

This project used Dexion P100+ Products, ensuring quality and durability. In order to make to most of the space available the lay out comprised of 2 bay types, which enabled us to maximise the space and give the customer **3687** pallet locations. Working with the customer and other contractors on site we were able to provide an efficient installation program and meet the deadlines required.
